

MASTER SERIES FRAME TENT

Celina's Master Series Frame tent utilizes the West Coast Style frame and fittings for compatibility between tents. The design of the Master Series Frame tent is meant to smooth and tighten the traditional look of frame tents by using a tensioned valance, or catenary curve, as opposed to clips or buckles. This allows the Master Series Frame tent to use less hardware, making for faster and easier installations.

Easy Setup • Freestanding Supports • Custom Printing Available
