

Disposable Pole Cover Sizing

Celina Tent's disposable pole covers are constructed using durable 4 mil poly plastic and used to cover tent poles & tubing creating an elegant look. They are flame retardant and perforated for easy cutting. This product can also be used as hose covers, ratchet assembly covers and as a caution indicator. Celina Tent recommends that you cut the pole cover 1.5 times the desired length and "scrunch" it around the pole/tubing. For example a 7' pole requires 10.5' of this product.

- 5" in diameter
- Will fit poles up to 2.5" diameter
- Each roll is 750' long
- Disposable pole covers are available in: White(ACDPC0400), Red (ACDPC0401), Green (ACDPC0402), Blue (ACDPC0403)
