

Storage Layout - 30' x 180' | 9.1m x 54.8m Frame Tent

Do you need seasonal or temporary storage space?

Celina tents & shelters can be repurposed for a variety of uses including temporary storage, maintenance facilities and warehouse facilities. On-site temporary / portable storage reduces hidden costs typically incurred by sub-renting space at an off-site facility. This layout demonstrates the ability for standard storage pallets to be placed under the shelter, keeping materials dry and protected from the elements.
