

## PREMIERE II SERIES ENGINEERED HIGH PEAK POLE TENT

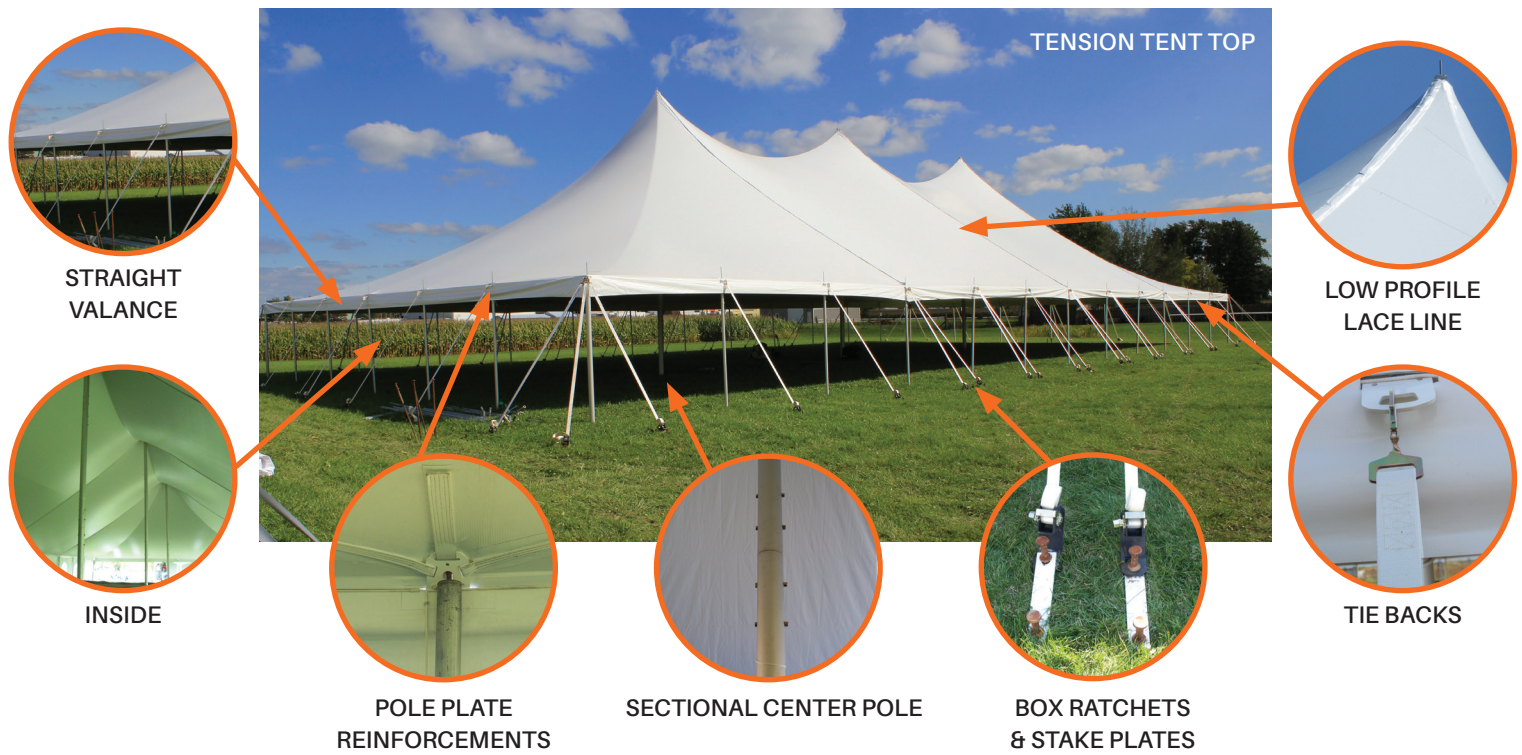

The Premiere II Series Engineered High Peak Pole Tent is a fine outdoor wedding or commercial event tent, perfect for party rentals, concerts, church services, and any large scale venues that need shelter from the elements. This engineered tensioned tent provides smooth transitions within its sweeping design and high peak canopy. The tent is engineered to withstand 90mph, 3 second wind gusts, making it great for party rentals and high end events.

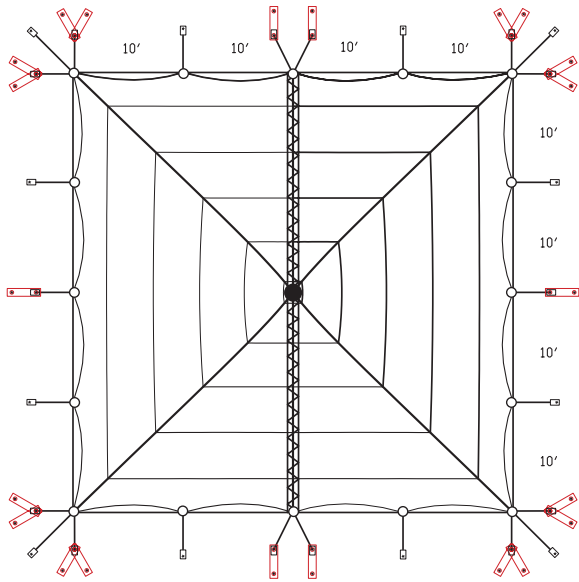

Elegant Aesthetic • Professional Engineer Approval • Custom Printing Available

## Component Overview:

Item Description	Side Poles	Center Pole(s)	Stake Plate	Stakes	Box Ratchet	Tie Backs

General PII tent construction shown on a 40' x 40'

## Tent Construction:

- 16 oz. (for 30' & 40' wides) & 18oz (for 50' & 60' wides) blockout flame resistant, mold & mildew resistant vinyl
- Stainless steel powder coated white plates at the top of each pole
- 2" reinforcement webbing with 11,000 lbs. break strength on all lace lines, hip lines, and between center poles
- 10,000 lbs. break strength tie back straps are anchored into a 10,000 lbs rated box ratchet with foot plate
- Jump ropes attached at each pole location
- 7/32" Polyester sidewall rope line held in with 1" polyester webbing sewn approximately every 15" around perimeter of tent top
- Universal ends and mid sections match up regardless of unfolded direction
- All Premiere II Tents come equipped with an Ohio Professional Engineering (P.E.) stamp of approval
